

Acquisition of solar container projects

Overview

Altus Power, a leading commercial-scale power company, today (Jan 15) announced the acquisition of 105 megawatts of in-construction solar assets from Cordelio Power -- a strategic expansion that underscores Altus Power's focus on scaling its portfolio through the purchase of. The solar energy sector has experienced a dynamic landscape of mergers and acquisitions (M&A) over the past decade, reflecting the industry's rapid growth and evolution. M&A activities in this sector are frequent, driven by factors such as market consolidation, technological advancements, and. Otovo, a European solar operations and maintenance service firm headed by former Sunnova CEO, enters California residential market with acquisition of Solar Service Professionals. The \$285 million acquisition of utility-scale assets follows a Chapter 11 filing by the major North Carolina developer. New York, NY – June 24, 2025 – CleanCapital, a leading independent power producer focused on distributed clean energy, today announced the successful acquisition of a portfolio of distributed generation assets totaling over 27 MW of solar capacity and 25 MWh of battery storage across Massachusetts. Atlantica's US portfolio now includes approximately 2GW of solar and wind projects plus 8.5GWh of storage capacity. The new platform adds projects in Illinois, Colorado, Mississippi, and Texas, complementing Atlantica's CAISO and MISO focus. Credit: Piyaset/Shutterstock. Atlantica Sustainable. Altus Power, an independent developer, owner, and operator of commercial-scale solar projects, announced the acquisition of 105 MW of solar projects from Cordelio Power, an independent solar, wind, and energy storage power producer. Already under construction, the acquired projects comprise four. December 19, 2024 – Atlantica Sustainable Infrastructure plc (NASDAQ: AY) (“Atlantica” or the “Company”), announced today that it has completed the acquisition of a development platform in the United States. The platform includes approximately 1.1GW of solar and wind projects under development.
