

Canada's solar container policy

Overview

The Canadian Border Services Agency (CBSA) has initiated the detainment of containers containing solar modules, citing the need for evidence demonstrating the absence of forced labor in the manufacturing process. Canadian Solar closely examines our supply chains to ensure goods imported are not mined, produced or manufactured, wholly or in part, with prohibited forms of labor, i.e., slave, convict, indentured, forced or indentured child labor. The Canadian Border Services Agency (CBSA) has initiated the detainment of containers containing solar modules, citing the need for evidence demonstrating the absence of forced labor in the manufacturing process. The Canada Border Services Agency is a federal law enforcement agency that is. Charge Solar Renewables Inc. says in a Federal Court lawsuit that the months it took to convince the agency to release the panels irreparably damaged its market position. Canada's border agency says it has detained about 50 shipments of cargo over suspicions they were products of forced labour. - Canadian Solar reported 7.9 GW module and 2.2 GWh storage shipments in Q2 2025, driven by North American demand but hindered by U.S. tariffs. - FEOC compliance challenges and the One Big Beautiful Bill Act impacted 23 GW of solar capacity, raising costs and complicating U.S. expansion strategies. You might be wondering why energy policy suddenly feels different. On November 27, 2025, Ottawa and Alberta signed a Memorandum of Understanding (MoU) that fundamentally changed the rules. This wasn't just a handshake. It was a trade-off. Alberta agreed to a 75% cut in methane emissions over the. CBSA says it acted in 'good faith' detaining Victoria company's solar panels at Vancouver ports <p>A patch is seen on the shoulder of a Canada Border Services Agency officer's uniform in Tsawwassen, B.C., Friday, Dec. 16, 2022.
