

# Capital portable power storage project

GEL Battery

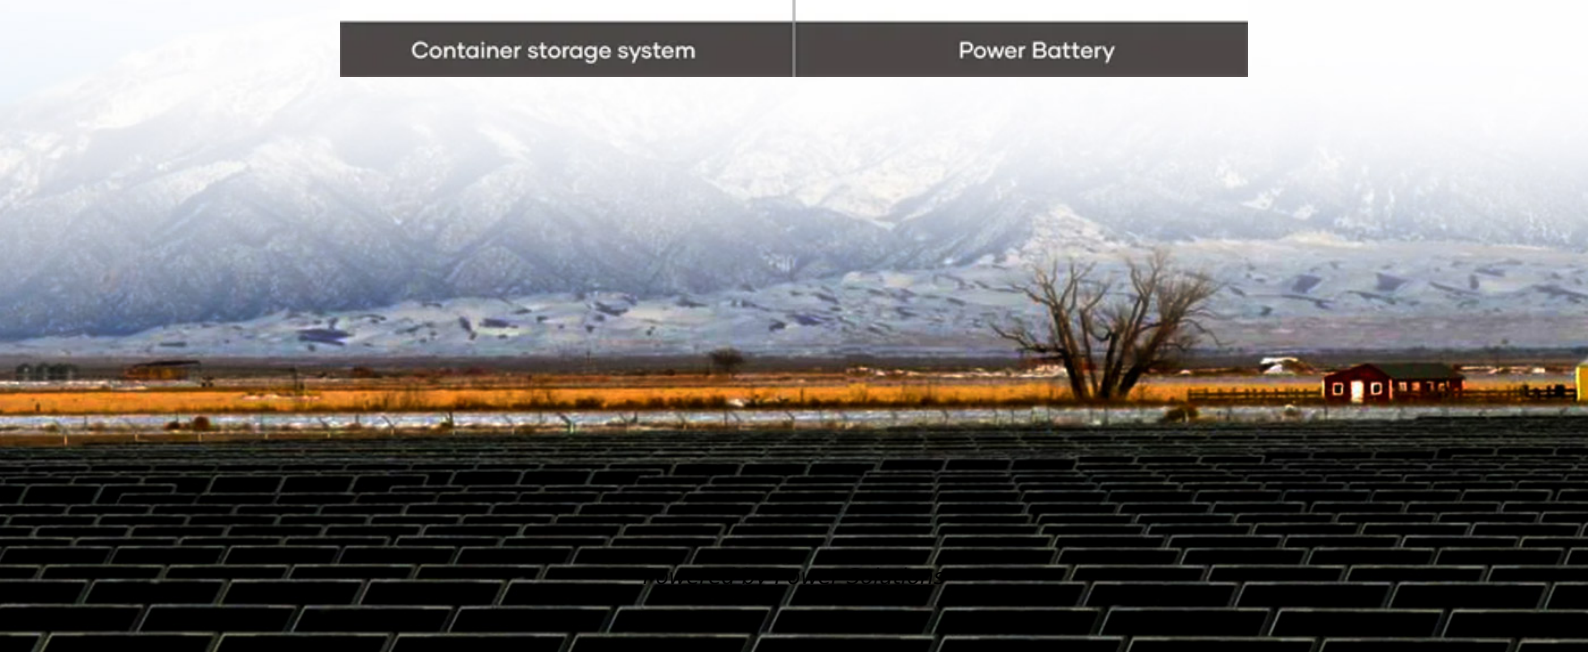

Lithium Battery

Container storage system

Power Battery

## Overview

---

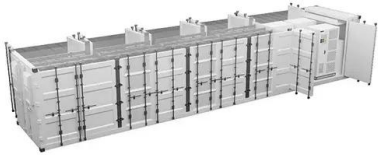

Capital Power has announced commercial operations of its 120MW York battery energy storage system (BESS) and 50MW Goreway BESS projects in Ontario, Canada. Capital Power said it delivered both projects on time, under budget, and “with an excellent safety record.” EDMONTON, Alberta - Capital Power Corporation (TSX: CPX) (“Capital Power”) is pleased to announce that its 120-MW York Battery Energy Storage System (“BESS”) and 50-MW Goreway BESS projects (“the projects”) have successfully achieved commercial operations. A leader of Ontario’s BESS development. Home /Operations /York - Battery Energy Storage System In August 2024, Capital Power began construction of a battery energy storage system (BESS) installation of up to 120 megawatts (MW) of power storage, with electrical energy output for up to four-hours. Commercial operation of the York BESS is. New York, NY - February 13, 2024 - Today CleanCapital and Available Power, a pure-play developer of investment-grade battery energy storage systems, announced they have entered a joint venture to build a pipeline of distributed energy storage projects across the U.S. In this strategic partnership. Capital Power has announced commercial operations of its 120MW York battery energy storage system (BESS) and 50MW Goreway BESS projects in Ontario, Canada. Capital Power said it delivered both projects on time, under budget, and “with an excellent safety record.” York and Goreway are Capital. Compass Energy Storage LLC proposes to construct, own, and operate an approximately 250-megawatt (MW) battery energy storage system (BESS) in the City of San Juan Capistrano. The approximately 13-acre project site is located within the northern portion of the City of San Juan Capistrano, adjacent. —became operational, collectively delivering 600 MW of solar power and 390 MW of storage. These projects now provide clean energy to approximately 270,000 powered vehicles from the roads or planting 6.5 million trees and growing them for 10 years demands on our grid,” said Ted Bardacke, chief.
