### Scientific objectives and payload configuration of the Chang'E-7

This review provides an overview on the scientific tasks of Chang'E-7 mission in the fourth phase of China's Lunar Exploration Project, puts forward scient

### Scientific objectives and payloads of the lunar sample return mission

Starting from Chang'E-1 mission, China has implemented five successful lunar missions, including Chang'E-1, 2,3,4,5 (Ye et al., 2014). Fig. 1 shows China's lunar exploration program three ...

### China's Chang'e-6 lands on moon's far side to collect samples

China's Chang'e-6 touched down on the far side of the moon on Sunday morning, and will collect samples from this rarely explored terrain for the first time in human history, the China National ...

### Chang'e 7 and 8: Next steps in China's lunar program

As China aims for a crewed lunar landing before 2030, two major robotic missions are set to prepare the ground: Chang'e 7 and Chang'e 8. These missions will explore the Moon's South

Pole ...

### Chang'E-5 samples reveal high water content in lunar minerals

Lunar soils returned by China's Chang'E-5 (CE5) mission record the unique information of solar wind essential to understanding the preservation and distribution of lunar surficial water

### Million-year solar wind irradiation recorded in chang'E-5

Here, we measure exposure ages and SW-induced amorphous rim thicknesses of individual grains from the Chang'E-5 (CE-5) and Chang'E-6 (CE-6) lunar soils to derive rim growth ...

### Eaton xStorage Container Containerized energy storage system

All-in-one container Eaton xStorage is now available in a containerized version. This all-in-one, ready-to-use solution is the perfect choice for energy storage applications in commercial and industrial ...

## China's Chang'e-6 collects 1,935.3 grams of samples from moon's far ...

The returner of the Chang'e-6 lunar probe is opened during a ceremony at the China Academy of Space Technology under the China Aerospace Science and Technology Corporation in Beijing, capital of ...

## Alignment Detection Technology of Chang'e-6 Primary Package ...

After the sampling, it was essential that the primary packaging container was correctly aligned with the sealed container attached to Chang'e-6 to ensure successful retrieval of the lunar soil.

## About China's lunar mission: Chang'e series lunar probes

Before Chang'e-6, China had sent a series of lunar probes to the moon to carry out its lunar exploration program. They were named after the mythical Chinese goddess Chang'e, who took a longevity ...

## CHAPTER 9

Chang'e-5 mission is China's first lunar sample return mission, 44 years after last robotic sampling by Luna-24 in 1976. Chang'e-5 aims at returning ~2 kg of lunar samples. It launched on November 24, ...

## Technical design and implementation of Chang'e-5 robotic sample ...

The Chang'e-5 mission of the third phase of China's Lunar Exploration Program is China's first mission to sample and return from an extraterrestrial object. The objective of ...

## What China's Chang'e-7 lander will do when it lands on the Moon

China 's upcoming Chang'e-7 mission, targeted for launch later this year, is officially framed as a scientific investigation of the Moon's south pole. But viewed in context, it also represents ...
