

China power construction wins bid for pumped solar container project

Overview

Recently, a consortium led by China Power Construction Corporation (referred to as "PowerChina") successfully won the bid for the EPC general contracting project of Xingtai Pumped Storage Power Station, with a bid amount exceeding 4.9 billion yuan and a total installed capacity of 1200 megawatts. In what is described as the largest energy storage procurement in China's history, Power Construction Corporation of China (PowerChina) is targeting an unprecedented cumulative storage capacity of 16 GWh. The bids were opened on December 4. How will powerchina select a qualified supplier for energy. [China Power Construction wins bid for pumped storage project] China Power Construction Corporation has successfully won the bid for a pumped storage project with a total investment of over 4.9 billion yuan. This is not only another major breakthrough for the company in the energy field, but also. In August 2025, a consortium consisting of China Water Resources and Hydropower 11th Engineering Bureau Co., Ltd. and Eighth Engineering Bureau Co., Ltd. successfully won the bid for the core project of Xinjiang Burqin Pumped Storage Power Station with a total amount of nearly 1.29 billion yuan, at. This project is a key implementation initiative in the Yangtze River Delta integration development plan, with a total installed capacity of 1.2 million kilowatts, featuring four units of 300,000 kilowatts each. Once completed, it is expected to generate approximately 1.4 billion kilowatt-hours. attery system was supplied by Gotion High-tech. This project is currently the largest combined wind power and energy storage project in China. The Inland Plain Wind Farm Project in Mengcheng County is own d by the Anhui Branch of Huaneng International. The project has a total installed capacity of. Recently, a consortium led by China Power Construction Corporation (referred to as "PowerChina") successfully won the bid for the EPC general contracting project of Xingtai Pumped Storage Power Station, with a bid amount exceeding 4.9 billion yuan and a total installed capacity of 1200 megawatts.

China power construction wins bid for pumped solar container project

World's Biggest Pumped Storage Project Hits Full Capacity in China

The world's biggest pumped storage plant, the Fengning Power Station, went into full service at the end of the year, supporting 10 gigawatts of solar- and wind-powered generation in ...

Led by China, Eastern Asia can meet key target for pumped storage

A massive planned buildout of pumped storage hydropower (PSH) in Eastern Asia, driven by China, would allow this region to single-handedly meet the International Renewable Energy Agency's ...

China Power Construction wins bid for pumped storage project--Seetao

[China Power Construction wins bid for pumped storage project] China Power Construction Corporation has successfully won the bid for a pumped storage project with a total ...

PowerChina Consortium Wins 8 Billion Yuan Bid for Pumped Storage

...

A consortium under Power Construction of China won the bid for a pumped storage power station project for 8.17 billion yuan, according to a

Thursday filing with the Shanghai Stock Exchange.

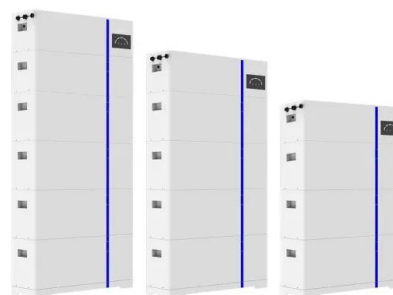

State Grid commissions 1.4 GW of pumped hydro storage in China

State Grid Corp. of China says it has finalized a pumped-hydro storage project consisting of four reversible pump-turbine generator units, each with a capacity of 350 MW. It is located near ...

China Power Construction wins bid for pumped storage project--Seetao

2025.12.15 17:31 [China Ukraine \$150 million landing of Namangan waste treatment project] The Namangan waste treatment project, with a joint investment of US \$150 million between China and ...

ESS

China building more pumped-storage power stations to meet rising ...

Due to the demand for new energy installations, pumped-storage power stations have become a new investment hotspot in China's power industry. According to official data, by the end of ...

China power construction pumped storage power station bidding

-- A consortium under Power Construction of China won the bid for a pumped storage power station project for 8.17 billion yuan, according to a Thursday filing with the Shanghai Stock

Approval and progress analysis of pumped storage power stations in

It summarizes the current development mode and provides an analysis of pumped storage development in both Central China and China as a whole. The relevant situation is of great ...

China building more pumped-storage power stations to meet rising ...

China's pumped-storage installed capacity remains the largest in the world, but industry experts said relying solely on the State Grid for construction will no longer be sufficient to meet the ...

China power solar container procurement wins bid

The tender marks the largest energy storage procurement in China's history. In what is described as the largest energy storage procurement in China's history, Power Construction Corporation of ...
