Fiber optic solar container design in Lebanon

How can I change my google fiber wifi from 2.4 to 5ghz?

How can I change my google fiber wifi from 2.4 to 5ghz? I've googled it and it says to go to the network tab after logging into google fiber, but I can't seem to find it anywhere and can't change anything.

Contact a Fiber team

Contact a Fiber team Hello! We are happy to assist you. To make sure we get your inquiry to the right team, please tell us more about you. I've signed up for Google Fiber (issue relating to account ...

Unable to get ipv6 WAN address

Hey guys, this seems to have started after I got Google Wifi installed, and had Google Fiber update my fiber jack. I had the original fiber jack, and original router with them where I was able to get an IPv6 ...

What to do when Fiber Jack blinks constant blue after installing new

A Fiber Jack should only blink blue when it's in the process of updating firmware, and certainly shouldn't continue blinking for days on end. I would first try simply powercycling the Fiber Jack by unplugging ...

How to check for a service outage in your area

Check for an alert at the top of the page about a network outage affecting your Google Fiber service. If there's no alert about known service issue, but you still experiencing connection ...

Connect your Android device

On your device screen, touch On your device screen, touch and then touch . Touch Wi-Fi and then select it to turn it on. The device scans and displays the names of available Wi-Fi networks. Secured ...
