

List of solar container industry organizations

Overview

Some of the major players in the solar container market include Yangzhou CIMC New Energy Equipment Co., Ltd. (China), Ecosun Innovations (France), Faber Infrastructure GmbH (Germany), BoxPower Inc. (US), and Hacon Containers (Netherlands). Our over 700 member companies represent an array of businesses that manufacture, design, install, finance and provide other resources to the growing local solar and storage market in California. They range from single-person start-ups, to family-run solar contracting firms, to leading multinational. The rise in the popularity of solar energy comes with the rise of the number of organizations and associations that aim to promote this form of renewable energy even further. As solar installers, it's important for you to be aware of these organizations because they are the ones that will most. The solar container market is projected to reach USD 0.83 billion by 2030 from an estimated USD 0.29 billion in 2025, registering a CAGR of 23.8% during the forecast period. The market is witnessing rapid adoption due to increasing demand for decentralized and portable renewable energy solutions. Solar organizations strengthen the renewable energy economy and support solar adoption worldwide. Here is a directory of some of the national, international, state, and local organizations working towards sustainability. National trade associations and other solar organizations are non-profit. SEIA works with its 1,200 member companies and other strategic partners to fight for policies that create jobs in every community and promote competition and the growth of reliable, low-cost solar power. Founded in 1974, SEIA is the national trade association for the solar and solar + storage. The Clean Energy States Alliance has compiled a database of over 400 community-oriented organizations with a focus on or interest in clean energy at the local level, especially for low-income and disadvantaged communities. The database especially emphasizes groups that seek to advance solar energy.
