

Overseas solar container product manager

Overview

The role requires expertise in electrical and mechanical engineering, along with business planning, to create products for utility-scale solar markets. Candidates should have at least 5 years of product management experience and a strong understanding of solar systems. At CS Power Systems, we're on a mission to transform lives by delivering clean, solar-powered electricity to millions worldwide—and we're just getting started. As a cutting-edge division of Canadian Solar, a global leader founded in 2001, we stand at the forefront of manufacturing high-performance. Headquartered just north of Nashville, Tennessee, Shoals Technologies Group (Shoals) is a leading electrical balance of systems (EBOS) solar, energy storage, and solar OEM solutions provider. Since its founding in 1996, the Company has introduced innovative technologies and systems solutions that. Complete project technical coordination, proposal creation, techno-economic comparisons, bid preparation and response, and technical exchanges. 2. Address and resolve internal and external coordination issues and related requirements during project advancement. 3. Develop and maintain technical. The global solar storage container market is experiencing explosive growth, with demand increasing by over 200% in the past two years. Pre-fabricated containerized solutions now account for approximately 35% of all new utility-scale storage deployments worldwide. North America leads with 40% market. kills, requirements, and career paths you need to know
