

Solar container dining car

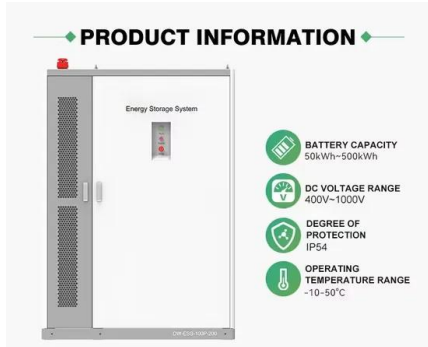

Overview

The unique project from Tesla combines Los Angeles staples of yesteryear and today on a single site: roadside diners, drive-in theaters, and electric vehicles. It will have a restaurant, drive-in theatre, and DC-fast charging station. Located in Hollywood, California, Tesla Diner is a Supercharging station, classic American diner and drive-in experience all wrapped up into one. With retro-futuristic design influences, this location offers Tesla and non-Tesla drivers alike with charging access along the historic Route 66 highway. Roughly 17 months into the project, Tesla's LA diner is looking closer than ever, but likely still months from completion. Tesla has been working on the construction of its unique Los Angeles diner, drive-in theater, and Supercharger project for the past year and a half or so, and a recent update shows the addition of solar canopies as it gets closer to completion. X user AISet51241438 shared progress update videos and. Tesla's latest development in Los Angeles is making waves as the company continues to enhance its unique diner concept, which combines dining with electric vehicle charging. Over the past 17 months, the project has progressed significantly, now featuring solar canopies and an expanded charging.
