

Tesla s upstream supplier of solar container

Overview

In July 2024, Tesla and Intersect Power signed a deal to supply 15.3 GWh of Megapacks. This agreement establishes Intersect Power as a leading global buyer and operator of Tesla systems, with nearly 10 GWh of large-scale solutions expected in its portfolio by the end of 2027. Tesla has agreed to supply US solar PV and energy storage developer Intersect Power with 15.3GWh of its Megapack battery storage solution. The electric vehicle (EV) and energy tech company, due to announce its financial results next week on 23 July, will supply the containerised battery energy. Tesla has received a giant order from US developer Intersect Power, equating to around 165% of the total battery energy storage systems deployed in Q2 2024, which saw the highest quarterly deployment in the company's history to date. US developer Intersect Power is looking to deploy 15.3 GWh of. Tesla has secured an absurdly large contract to provide over 15 GWh of Megapack to California's Intersect Power. The Megapack has become the go-to, posterchild product for large-scale energy storage around the globe. It's by far Tesla's fastest-growing product and enabled the company to deploy a. Energy storage linked to solar power is expanding fast, challenging supply chains and putting pressure on global manufacturers from China to the US The rise of solar-plus-storage is no longer just a technical trend—it's now a major supply chain story. Tesla, BYD and CATL are not only producing. Tesla and Intersect Power have signed a contract for 15.3 GWh of Megapacks, Tesla's battery energy storage system (BESS), for Intersect Power's solar + storage project portfolio through 2030. The agreement, along with previous commitments, will enable Intersect Power to deploy nearly 10 GWh of. Tesla Energy (TSLA) won a multi-billion dollar deal for supplying its large Megapack batteries to Intersect Power. This battery supply contract spans several years well through 2030. Tesla will provide Intersect Power with 15.3 GWh of Megapacks for the next 6-7 years. These Tesla Megapacks will be.

Tesla s upstream supplier of solar container

tesla-ex101_7.htm

Tesla's supply chain has a unique hybrid of traditional automotive and high-tech industry suppliers from around the world. Most of our Tier 1 suppliers (i.e., directly sourced suppliers) do not ...

Tesla Provides Intersect Power With 15.3 GWh of Megapacks for ...

Intersect Power develops, owns, and operates some of the country's largest and most flexibly dispatched Battery Energy Storage Systems (BESS) at the company's solar + ...

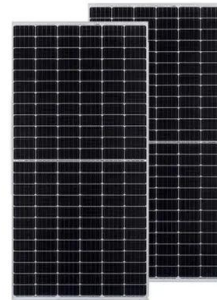

Tesla, Inc.

Tesla's supply chain has a unique hybrid of traditional automotive and high-tech industry suppliers from around the world. Many of our Tier 1 suppliers (i.e., direct suppliers) do not purchase all ...
