

The future scale of industrial and commercial solar container

The future scale of industrial and commercial solar container

std::future::wait_until

wait_until waits for a result to become available. It blocks until specified timeout_time has been reached or the result becomes available, whichever comes first. The return value indicates why ...

Pandas replace and downcasting deprecation since version 2.2.0

To opt-in to the future behavior, set ``pd.set_option('future.no_silent_downcasting', True)`` 0 1 1 0 2 2 3 1 dtype: int64 If I understand the warning correctly, the object dtype is "downcast" to ...

std::future::wait_for

If the future is the result of a call to std::async that used lazy evaluation, this function returns immediately without waiting. This function may block for longer than timeout_duration due to ...

What is a Future and how do I use it?

A future represents the result of an asynchronous operation, and can have two states: uncompleted or completed. Most likely, as you aren't doing this just for fun, you actually

need the ...

std::future::get

The get member function waits (by calling wait ()) until the shared state is ready, then retrieves the value stored in the shared state (if any). Right after calling this function, valid () is false.

...

Mockito is currently self-attaching to enable the inline-mock-maker

I get this warning while testing in Spring Boot: Mockito is currently self-attaching to enable the inline-mock-maker. This will no longer work in future releases of the JDK. Please add ...
